

Want to make your home more energy efficient?

Mascoma Bank can help.

Mascoma Bank is proud to offer a new, innovative, and flexible energy efficiency loan.

This loan provides funds to make energy efficiency and weatherization improvements to your home at an affordable rate. As your energy efficiency increases, your utility bill lowers.

An estimated 10 to 20% of all energy costs are lost to leaks. This loan can help you:

- Replace old windows
- Update heating and cooling systems
- Better insulate your home
- Upgrade old appliances to new, more energy-efficient models

Available funding up to \$15,000 over a 7-year term at 7.99% APR*

Apply online at [MascomaBank.com](https://www.mascomabank.com), contact your local branch, or reach out to Lindsay White at (802)280-4957 or Lindsay.White@mascomabank.com for more information.

Subject to credit approval.

*Loans are up to \$15,000 over a 7-year term at an annual percentage rate of 7.99% (rate accurate as of December 16, 2020, but subject to change without notice). A \$10,000 loan for 7 years would result in principal and interest payments of \$155.81 per month.

Solaflect is a Vermont based developer, manufacturer, and installer of solar trackers. Mascoma Bank is not affiliated with Solaflect and is not guaranteeing any business with them.
